

Full Accreditation by the Malaysian Qualifications Agency (MQA) is a key assessment exercise that evaluates whether the teaching, learning, and all related activities of a programme at the University meet the required quality standards of the Malaysian Qualifications Framework (MQF). The MQA accreditation ensures that the programme aligns with national educational standards and maintains high academic integrity.

Accreditation Process

TIMELINES & SELF-REVIEW

The University seeks MQA Full Accreditation before the first cohort graduates, ensuring the programme is listed on the Malaysian Qualifications Register (MQR).

A programme-level Self-Review is led by the Head of School and overseen by the Associate Director of Academic Quality, informed by the School's Annual Monitoring and Review (AMR) Report.

The review process also includes preparation of MQA documentation (MQA-02 Part A-C) carried out by HWUM in collaboration with Academic Quality and the School.

MQA SUBMISSION & DOCUMENTATION

Once the self-review is complete, the MQA-02 documentation is signed off by the Head of School and Deputy Provost (Malaysia) and submitted to MQA via e-MQA Accreditation System (e-MAS), for approval.

AUDIT VISIT

MQA schedules an audit visit, which typically lasts 1.5 - 2 days. The visit involves a Panel of Assessors (POA), and HWUM has the opportunity to seek clarifications during the exit meeting.

The POA Chairman provides an executive summary of findings at the end of the visit.

POST-AUDIT PROCESS

After the visit, the POA Chairman submits the panel's report to MQA, which issues a final Evaluation Report.

If the programme meets the necessary standards, MQA grants Full Accreditation and issues the Full Accreditation Certificate.

HWUM and the School provide feedback on any "*Syarat-syarat Khusus*" (Specific Conditions) **six months** after receiving the certificate.
